

Healthcare a Better Way

When it comes to affordable quality healthcare choices, we put our members first. We deliver the right care at the right time for the best price for our members.

PPO MVP (Minimum Value Plan)

The Second ACA requirement is that employers with 50+ employees must offer a MVP, but are not required to pay the entire cost of an affordable MVP. Minimum Value Plans offer substantial coverage for inpatient hospitalization and physician services under which the plan's share of the total allowed costs of benefits is at least 60%. Our MVP meets the criteria of an ACA-compliant Minimum Value Plan.

What happens if a company with more than 50 employees fails to offer an ACA-compliant plan?

The "B Tax" is a \$4,350 annual penalty per full-time employee enrolled in a subsidized plan through a government exchange, whenever a Large Employer fails to offer an affordable Minimum Value Plan (MVP). PMBMed's PPO MVP protects large organizations from the "B tax"

The penalty is assessed on a case-by-case basis, meaning you may be penalized if just one employee declines your benefits and turns to the Marketplace for subsidized coverage. However, you are only penalized for each employee who receives subsidized coverage, not for your entire employee population.

- PPO MVP Plan is only available to companies with 50 employees or more

For a MVP plan to meet the healthcare needs of your employees, get in touch with us today! We'll send you a tailor-made plan for your business. Offer quality, comprehensive healthcare with a PMBMed PPO MVP plan.
